RESEARCH PUBLICATIONS/PRESENTATIONS

Ceniceros, S., Thomlinson, P., Underwood, M., Rowden, V., and Hulgus, J. (November, 2011). *Thyroid stimulating hormone as a predictor of metabolic syndrome for psychiatric patients being treated with an antipsychotic medication.* Paper to be presented at the 2011 Neuroscience Education Institute Global Psychopharmacology Congress, Colorado Springs, CO.

Thomlinson, P. (2012, April). *Behavioral health and health care access in vulnerable populations.* Presented at Healthy Lives-Healthy Communities: Building Health Equity in Missouri One Community at a Time, University of Missouri Health System.

Thomlinson, R. P. (October, 2011). *Psychological recovery from disaster: Lessons from the Joplin tornado.* Presented at Ozarks Area Health Information Management Association (OAHIMA), St. John’s Health Systems, Springfield, MO.

Thomlinson, R. P. (April, 1997). *Skills for the age of accountability: Putting dollar values on returns from psychological interventions*. Workshop conducted at the 43rd Annual Meeting of the Southeastern Psychological Association, Atlanta, GA.

Thomlinson, R.P., Ulam, F., and Quinn, R. (August, 2002). QEEG asymmetries’ relationship to depression in stroke patients and controls. Accepted for presentation at the 2002 Convention of the American Psychological Association, Chicago, IL.

Underwood, M., Thomlinson, P., and Sanders, B. (September, 2010). *Sustaining evaluation efforts in your community.* National webinar presented under auspices of the National Evaluation of the Comprehensive Community Mental Health Services for Children and Their Families Program.

**RESEARCH & RELATED GRANTS**

**Research:** Improving Care, Reducing Costs (ICRC) project, study site principal investigator for 3-year research project aimed at reducing re-hospitalizations among patients with schizophrenia and schizoaffective disorder through targeted innovations, including web-based and smartphone applications; funded through the Healthcare Innovation Challenge of CMS; 2013-2016.

**Research:** Recovery After an Initial Schizophrenic Episode (RAISE) study site principal investigator (Springfield and Columbia, MO). Sub-grantee for 6-year NIMH research grant (approximately $350,000 to our sites) evaluating impact of early intervention among those newly diagnosed with schizophrenic disorders; 2009-2015.

**Research:** Research & Evaluation of Antipsychotics in Community Health Organizations—Outcomes (REACH OUT) study: site principal investigator for 2-year, approximately $100,000 study of practice patterns with long acting injectable antipsychotic medications in CBHO’s, sponsored by Johnson & Johnson and NCCBH; 2010-2012.

**Research:** Co-investigator for Medscape funded experimental study of the effects of educational interventions on metabolic screening rates among Missouri community mental health centers.

**Research:** Evaluator for Missouri Department of Mental Health’s $2 million Joplin Child Trauma Treatment Center, which is to provide critical mental health services to children and families impacted by the historic 2011 Joplin tornado.

**Grant:** Show-Me Healthy People is a grant co-written with CMH in Bolivar, and funded at $450,000 over 3 years; the aim of the grant is to improve outreach and access to behavioral health care in rural health care settings, including clinics, hospitals, and health departments through co-location of services, telemedicine, and implementation of a behavioral health consultation model.
Grant: Senior Connections is a 2-year (2011-2013) $200,000 grant from the Missouri Foundation for Health’s Older Adult Behavioral Health program, aimed at expanding and enhancing Burrell’s services to older adults in need of behavioral health care across Southwest Missouri.

Grant: Advancing Youth Through Community Connections (AYCC) is a 3-year (2010-2013) $900,000 grant to Burrell from SAMHSA, aimed at improving care for adolescents (ages 12-17) impacted by substance abuse and their families through application of an evidence-based approach (ACRA/ACC).

Grant: Missouri Screening, Brief Intervention, and Referral to Treatment (MoSBIRT) is a 5-year (2008-2013), $12 million grant from SAMHSA, co-written by Burrell, and for which Burrell is a subawardee (approximately $1 million); through this grant, Burrell has fielded SBIRT services in CoxHealth’s North ER, South ER (2011), and Citizen’s Memorial Hospital’s Bolivar ER.

Grant: Home Visitation Program (formerly Stay At Home Parent Program): Building Incredible Brains, is a 5-year (2007-2012) $842,000 grant from the Missouri Department of Social Services, in which three full-time staff provide early childhood developmental education to poverty-level parents of children under age 3 with special emphasis on social and emotional skills development.

Grant: Missouri Parent Information Resource Center (MOPIRC) is a 5-year (2006-2011), $2.6 million project funded by the U.S. Department of Education, targeting families of Title I schools with goals of increasing awareness of educational rights, early literacy skill building, and social/emotional skill development for preschoolers.

Grant: The ECHO Project (Enhancing Children’s Healthy Opportunities) is funded by a 5-year (2006-2011), $1.05 million grant from The Community Foundation of the Ozarks. The project addresses “red flag” issues in the community, with particular emphasis on improving access to social, educational, and health care services for high-risk children and families.

Grant: The Journey Home Project is funded by a 5-year, $1.7 million SAMHSA grant (July 2005 through June 2010) to provide mental health services and substance abuse services to homeless families impacted by co-occurring disorders.

Grant: Safe Schools-Healthy Students: This grant, written by Burrell and submitted by Springfield Public Schools, focuses on six elements of creating safe school environments, with a heavy emphasis on mental and behavioral health prevention and intervention. The SS/HS grant runs for three years and has a budget of $8.2 million.
